

Friday, February 4th

General Stream

2:00 PM

Registration

4:30 PM

Communication Workshop

5:30 PM

Introduction

E. Crystal

Ablation Frontiers

5:40 PM

Robotics in ablation

C. Barrett

6:05 PM

New technologies in PVI

G. Michaud

E. Crystal & G.
Michaud

6:30 PM

Appendage occlusion (percutaneous endovascular, epicardial, and surgical)

S. Singh

7:00 PM

Welcome Snacks

Saturday, February 5th

General Stream

7:30 AM **Breakfast**

AF Ablation

8:55 AM	The management of post PVI atypical flutters	A. D'avila	A. D'avila & P. Guerra
9:20 AM	Pharmacologically guided ablation for atrial fibrillation	S. Singh	
9:45 AM	Cryoballoon (STOP AF results, and results on permanent isolation)	P. Guerra	

10:10 AM **Break**

VT Ablation

10:25 AM	Epicardial VT ablation	A. D'avila	J. Sapp & C. Barrett
10:50 AM	Catheter ablation of VT in rare disease	V. Chauhan	
11:15 AM	State of the art for Scar / ischemic VT Ablation	J. Sapp	

12:00 PM **Lunch/Free Time**

New developments in the management and diagnosis of channelopathies

4:00 PM	Stress tests for LQT	I. Lashevsky	S. Viskin & M. Gollob
4:25 PM	Brugada management: Less ICDS?	S. Viskin	
4:50 PM	Clinical and genetic aspects of inherited arrhythmia syndromes associated with SCD	M. Gollob	
5:15 PM	Short QT syndrome?	S. Viskin	

5:40 PM **Break**

Interesting Clinical Cases

5:55 PM	Case Study	S. Viskin	E. Crystal & I. Mangat
6:20 PM	Case Study	I. Mangat	
6:45 PM	JEOPARDY!		E. Crystal & S. Turner

8:30 PM **Dinner**

Saturday, February 5th

Device Stream

7:30 AM **Breakfast**

Reduction of inappropriate shocks

8:30 AM F. Philippon/S. Connors (SJM & BSC)

9:30 AM **Break**

Follow-up of cardiac devices

9:45 AM A. Janmohamed/I. Tiong (MDT & Biotronik)

10:45 AM **Break**

CRT Optimization

11:00 AM B. Thibault/F. Phillipon (Sorin & SJM)

12:00 PM **Lunch/Free Time**

ICD testing: How to do it?

4:00 PM J. Healey/E. Crystal (MDT & Biotronik)

5:00 PM **Break**

CRT: What tools for which veins?

5:15 PM I. Tiong/A. Janmohamed (BSC & MDT)

8:30 PM **Dinner**

Sunday, February 6th

General Stream

7:30 AM Breakfast

Inherited Diseases

8:30 AM	The genetics and molecular mechanisms of atrial fibrillation	M. Gollob	I. Lashevsky & V. Chauhan
8:55 AM	Genetics in Cardiomyopathies	S. Connors	
9:20 AM	Ablation targets in inherited channelopathies	P. Lambiase	

Stroke Prevention in AF

9:45 AM	Warfarin vs. Dabigatran vs. Rivaroxaban	K. Ahmad	J. Healey & K. Ahmad
10:10 AM	Dronedarone paradigm shift	J. Healey	

10:35 AM Break

General Cardiology and Arrhythmia

10:50 AM	How to choose a drug for stroke prophylaxis?	B. Coutu	M. Bentley-Taylor & F. Merali
11:15 AM	Clinical principles in electropharmacology	D. Newman	
11:40 AM	Closing Remarks	E. Crystal
