

Robert P. Giugliano, MD

Senior Investigator, TIMI Study Group
Staff Physician in the Cardiovascular Division, Brigham and Women's Hospital, Boston, MA and Associate Professor of Medicine at Harvard Medical School

Dr. Giugliano, MD is a Senior Investigator with the TIMI Study Group, Staff Physician in the Cardiovascular Division at Brigham and Women's Hospital, and Associate Professor of Medicine at Harvard Medical School.

He is a graduate of Dartmouth College (Mathematics, 1985), Harvard Medical School (Doctorate of Medicine, 1989), and Harvard School of Public Health (Master of Science, Epidemiology, 1997).

Dr. Giugliano completed residency and chief residency at Cedars-Sinai Medical Center (UCLA affiliate, 1989-1993) and cardiology fellowship at Massachusetts General Hospital (1993-1996).

He joined the Brigham and Women's Hospital as a Medicine Research Fellow in the Thrombolysis in Myocardial Infarction (TIMI) Study Group directed by Eugene Braunwald, and was appointed to the Cardiovascular Division faculty of the Brigham and Women's Hospital in 1998.

Dr. Giugliano's areas of research interests include novel antithrombotic, fibrinolytic agents, and lipid-lowering therapies, and patient outcomes following Acute Coronary Syndromes (ACS). He has authored more than 250 articles and chapters, and delivered hundreds of lectures.

Dr. Giugliano is the Principal Investigator for the ENGAGE-AF TIMI 48 trial (edoxaban in AF), and a member of the Operations Committees and Lead TIMI Investigator for the IMPROVE-IT (ezetimibe post ACS), FOURIER (evolocumab in stable cardiovascular disease), EBBINGHAUS (evolocumab and congnition) and EARLY ACS trials (eptifibatide in ACS).

Dr. Giugliano serves on numerous Data Safety Monitoring Boards, clinical endpoint committees, and Holter/ECG Core Laboratories. He actively participates in the clinical activities of the Cardiovascular Division, attending in the Levine Cardiac Intensive Care Unit, telemetry unit, and consult services, and sees patients in a busy growing outpatient practice.
