

Friday, February 5th

General Stream

12:00 **Registration starts**

Case studies of general interest

12:00	Patient with pacemaker	
12:15	Patient with wide complex tachycardia	
12:30	Patient with syncope	Robert Myers and
12:45	ICD Storm	Ilan Lashevsky
13:00	Malfunctioning pacemaker	
13:15	ICD or BiV ICD	
13:30	Cardiac anatomy course with dissection	Boaz Avitall
17:00	Introduction	Eugene Crystal
Opening EP Session		
17:15	Subcutaneous ICDs: initial patient experience	Riccardo Cappato
17:40	Lifestyle recommendations and genetic testing in LQTS	Andrew Krahn
18:05	AF Ablation: alternative energy sources	Peter Guerra
18:30	Shock Reduction on ICD patients	Atul Verma

19:00 **Dinner**

Saturday, February 6th

General Stream

7:30 **Breakfast**

8:30 Dronedaron: compatibility and safety Denis Roy

Dream EP Tools and Toys

8:55 Molecular and cellular therapies for the treatment of cardiac arrhythmias Kevin Donahue

9:20 Pharmacologically-guided ablation Sheldon Singh

9:45 Contact force: A parameter to improve safety and efficacy of catheter ablation Dipen Shah

10:10 **Break**

Risk assessment in EP

10:25 ICD therapy: when are the sceptics (nihilists?) correct? James Daubert

10:50 Stroke in tachyarrhythmia Jeff Healey

11:15 Driving risk with arrhythmia Chris Simpson

11:40 Risk of SCD in non-ischemic patients James Daubert

12:05 **Lunch/Free Time**

Image guidance in EP

16:00 3D Intracardiac Echocardiography Brian Courtney

16:25 Ablation lesion characterization Andriy Schmatukha

16:50 Catheter tracking technologies Boaz Avitall

17:15 Image-based tissue characterization for treatment planning and assessment Razavi

17:40 **Break**

Atrial Fibrillation: Invasive EP

17:55 AF Ablation: signal-based approach Atul Verma

18:20 The use of robotics in EP Sabine Ernst

18:45 The best tools for AF ablation Boaz Avitall

19:10 EP strategies for targeted ablation of reentrant atrial tachycardias Dipen Shah

20:00 **Dinner**

Device Stream

8:30 Device Session 1 Jeff Healey
CHF Monitoring tools in CRT patients

9:30 **Break**

9:45 Device Session 2 David Birnie
Symptoms and device diagnostics

10:45 **Break**

11:00 Device Session 3 Francois Philippon
Tachy-zones management

12:00 **Lunch/Free Time**

16:00 Device Session 4 Amir Janmohamed
Remote patient monitoring

17:00 **Break**

17:15 Device Session 5 Chris Simpson
AF Diagnosing and mode switching

Sunday, February 7th

7:30 Breakfast

	Databases and surveys in EP	
8:30	Surveys should become a provider responsibility	Jack Tu
8:55	Balanced report card may work in the EP world	Jeff Healey
	Novel interventions in Afib	
9:20	New pharmacologic strategies	David Newman
9:45	Medical treatment versus ablation for AFib	Carlos Morillo
10:10	LAA occlusion devices and strokes	Allan Skanes
10:35	Break	
	New Era in Stroke Prevention in AF	
10:50	Acute and chronic rate control in atrial fibrillation	Arnold Pinter
11:15	Stroke prevention in atrial fibrillation	Cam Joyner
11:40	Closing Remarks	Eugene Crystal
